Glen Cunningham

April 4, 2025

Due to the amount of rain that we have already received and the projected amount that we are expected to possibly receive, the river could rise very quickly. No one can accurately predict the weather or how high the river will get. Please take the necessary precautions to be prepared in case the need to evacuate arises. In case of flooding and necessary evacuations, places to shelter will be made available. For any questions call the City of Norfolk 870-499-5225. Please be safe and monitor the weather until this situation clears.

Thank you,

Lisa Harrison, Mayor
City of Norfolk
